AYESHA BEE

(+91) 6377560956

beeayesha227@gmail.com

To acquire a position and contribute as a group member in your current

work role and ready to utilize my technical skills.

INTERNSHIP

myCloud Planning Tools | John Deere & Company
May 2021- July 2021

Added a new cloud resource in Cost Calculator and completed the end-to-end flow.
It required filtering of cost data and loading it in Database from CSV file using Python,
Calculation changes using java and frontend development using ReactJS.

PROJECTS

VIRTUAL TRIAL ROOM,
January 2021- March 2021

Made a 2D trial room in which the Haar Cascade classifier using OpenCV and
Histogram of Oriented Gradients in Dlib are the main technologies used for face
detection and body detection.

FEEDBACK SYSTEM,
February 2020

It takes feedback and evaluates its average rating. Used html, CSS, for front-end , PHP
for Back-end and MySQL for databases.

HANGMAN,
December 2019

It is a word Puzzle game which has 2 levels, easy and difficult and for both the levels
specific chances are given for guessing a particular word. A game with graphics **using
the Tkinter** GUI package and python.

IMDB Scraper,
February 2019

It extracts information like ratings, votes etc. from website in python using many
libraries. I choose Beautiful Soup because it's very simple library with minimal lines of
code.

EDUCATION
